CROWN OF GOLD

A new large hardy yellow ~~flower~~ *was*

introduced late in 1940 for the first time.

Seen in bloom last year at the annual meeting in Evanston; in the garden of O. W. Fay, Wilmette.

Crown of Gold is from the hybridizer, David F. Hall of Wilmette.

Crown of Gold is a deep yellow 35" tall, has 11-12 buds to the stem.

Blooms as the earliest yellow and due to the number of buds, has a very long blooming season.

\$10.00
